

Biki Haldar

MERN Stack Developer

Malda, West Bengal, India | +91 89440 00886 | bikihaldar2454@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

MERN Stack Developer with hands-on experience building full-stack web and mobile applications using MongoDB, Express.js, React.js, Node.js, and React Native. Skilled in building RESTful APIs, JWT-based authentication, and responsive UIs with Tailwind CSS. Comfortable working across the full stack from database design to deployment, with a strong foundation built through industry certifications and self-driven projects.

Experience

MERN Stack Developer Intern – TopStack India

Jun 2025 – Oct 2025

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js as part of a project team.
- Built and consumed REST APIs, connecting frontend and backend services end-to-end.
- Designed responsive UI components using Tailwind CSS across multiple application modules.
- Collaborated with senior developers using Git/GitHub for version control, participating in code reviews and iterative feature delivery.
- Debugged and resolved issues across the stack, gaining practical experience in real-world full-stack workflows and agile-style development.

Projects

SpareExpress – Auto Parts E-Commerce Platform

[Live](#) | [GitHub](#)

- Built a full-stack e-commerce platform (MERN, Redux Toolkit, Tailwind CSS) with product browsing, cart, checkout, and order management.
- Implemented JWT-based authentication, protected routes, and address/order management for end users.
- Built category/subcategory-based product browsing and an admin panel for managing products via REST APIs.

AI Website Builder – AI-Powered Website Generation Platform

[Live](#) | [GitHub](#)

- Built a full-stack platform (MERN, Redux Toolkit, Tailwind CSS, Stripe) enabling users to generate modern, responsive websites using AI.
- Implemented secure authentication/authorization and a credit-based generation system with Stripe payment gateway integration.
- Designed a user dashboard for project management with a RESTful API architecture and MongoDB backend.

TechHub – Hardware Sale & Rental Mobile App

[Expo Build](#) | [GitHub](#)

- Built a cross-platform mobile app (React Native, Expo, Firebase) for buying and renting computer hardware such as RAM, laptops, monitors, and GPUs.
- Implemented Firebase Authentication and a Firestore-based product catalog with search and category filtering.
- Built a week/month/year rent-duration selector with automatic price calculation, cart management, and order checkout via Firestore.
- Designed navigation with React Navigation (stack + bottom tabs) and managed app state using Context API.

Technical Skills

Frontend: React.js, Redux Toolkit, React Native, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, Mongoose, MySQL

Cloud & Tools: AWS (EC2, S3, IAM), Git/GitHub, Postman, VS Code

Languages: JavaScript, Python, SQL

Education

B.Tech – Seacom Skills University, Birbhum, CGPA: 8.4

Jul 2021 – Aug 2024

Diploma – Malda Polytechnic, Malda, CGPA: 7.7

Aug 2018 – Jun 2021

Certifications

MERN Stack Development – TopStack India | AWS Cloud Training – DH Technologies | Data Science & Analytics – Zidio Development | Informatica PowerCenter & SQL – H Source Technologies
